# Samuel Hinton

PhD Candidate, samuelreay@gmail.com

### **Education**

2016–Now **Doctor of Philosophy** 

University of Queensland

Analysing supernovae in the Dark Energy Survey using Hierarchical Bayesian models to help constrain the nature of dark energy.

2010–2015 **Bachelor of Science** (Physics)(Hons, 1<sup>st</sup>)

University of Queensland

Thesis: Analysed the Baryon Acoustic Oscillation signal imprinted in the large scale structure of the universe using the WiggleZ survey. Won the Astronomical Society of Australia's award for best Australian Astrophysics honours thesis of the year.

2010–2014 **Bachelor of Engineering** (Software)(Hons, 1st)

University of Queensland

Thesis: Created the first online client-only web-application to compute redshifts from telescope spectra. Won the GroudProbe prize, IEEE student thesis prize and IET student prize.

# **Experience**

#### 2017, 2016 Lawrence Berkeley National Laboratory

Berkeley, California

Research Fellowship

Research fellowship to work on Bayesian Hierarchical Modelling and its applications to Supernova Cosmology. Specifically, investigating how to use high dimensional hierarchical models to model individual supernova instead of populations to provide better constraints on cosmology using supernova discovered by the Dark Energy Survey.

#### 2015–2016 Gemini & Australian Astronomical Observatory

La Serena, Chile

Research Intern

Utilised photometric data of Maffei 1 to determine globular cluster candidates and their properties for spectroscopic follow-up. Utilised data reduction pipelines, automated analysis methods in Python, and applied machine learning techniques to perform object classification.

2010-2014 **GBST** 

Brisbane, Queensland, Australia

Software Developer

Developed business intelligence reporting solutions, designing and developing server and client based web application code, creation of large scale SQL queries, optimising queries, databases and applications for network, processing and memory constraints, developed back-end server code and front-end web applications.

### **Noteable Awards**

2016	<b>Bok Prize</b> Best astrophysics honours thesis in Australia	Astronomical Society of Australia
2016	Australian Postgraduate Award	Australian Government
2016	Science Faculty Graduate of the Year	University of Queensland
2016	Australian Institute of Physics Prize Top physics graduate.	University of Queensland
2016	University Medal (Science)	University of Queensland
2015	Australian Gemini Undergraduate Summer Studentships	Australian Astronomical Observatory
2015	AAO Honours Scholarship	Australian Astronomical Observatory
2015	University Medal (Engineering)	University of Queensland

## **Other Awards**

2015	Rhodes Scholarship Finalist	Oxford University
2015	A.W. Oakes Scholarship	St John's College
2015	Harriet Marks Bursary Academic merit in science honours.	University of Queensland
2015	10x Deans Commendation	University of Queensland
2015	Helen Thompson Prize for All Round Excellence	St John's College

2015	IET Student Prize Outstanding academic success. The Institution of	Engineering and Technology
2015	David Andrew Krnak Memorial Prize Top engineering graduate.	University of Queensland
2014	UQ Future Leader	University of Queensland
2014	<b>IEEE Student Thesis Prize</b> Best final year thesis.	IEEE
2014	GroundProbe Prize Best final year thesis.	University of Queensland
2014	RWH Hawken Scholar	University of Queensland
2014	UQ Summer Research Scholarship	University of Queensland
2012	Walter Bruce Darker Scholarship	University of Queensland
2012	<b>Exxon Mobil Achievement Award</b> Top mechanical engineering student.	University of Queensland
2011	Alstom Prize Top electrical engineering student.	University of Queensland
2010	UQ Academic Excellence Scholarship	University of Queensland
2010	ICT Enabling Scholarship	University of Queensland
2010	John Black Prize	University of Queensland

# **Communication**

tional content.

2018	BrisScience Presenter Invited to talk at the monthly BrisScience event on the dark side of the universe.  BrisScience & UQ
2018	<b>Invited Contestant, Academic Champion</b> Cast as the academic champion for the 'Champions v. Contendors' season of Australian Survivor.
2018-2017	<b>School Guest Presenter</b> Clayfield College, Gumdale State School Talks to primary and secondary students on astronomy, science, STEM and career pathways.
2018-2017	<b>Science Communicator</b> Pint of Science, Physics in the Pub Gave public talks to a general audience about various topics in astronomy.
2017	<b>Invited Presenter</b> Invited presenter at a progressional development program for physics PhD, honours and undergraduate students.
2017	Workshop Organiser, Host and Presenter CAASTRO Code Workshop Created and presented a code workshop focusing on open-source science run across Australia.
2017	Battle of the Brains Panel Scientist  National Science Week Invited participant in a games panel discussion for physicists during National Science Week.
2017	World Science Festival Tour Guide  Queensland Museum & UQ  Scientific tour guide for the Large Hadron Collider exhibit during the World Science Festival.
2017	<b>FameLab Australia Scientist</b> State finalist FameLab scientist. Public communication through radio interview and stage presentation.  British Council
2017	<b>Guest Scientist</b> Helped script, narrate and appear in a ScopeTV educational astronomy episode on the solar system.
2017-2016	<b>Tutor &amp; Content Creator</b> Tutored undergraduate physics subjects and created content for the undergraduate cosmology course.
2016	<b>Guest Scientist, An Evening with Dr Lisa Randall</b> Gave the opening speech for the Brisbane event, talking about the exciting future of astronomy.
2016	<b>UQ Science Demo Troupe Member</b> Joined the UQ Science Demo troupe to create resources for the group and participate in UQ demonstrations.
2016	<b>Uluru Astronomer in Residence</b> Accompanied Sky Tours to answer scientific questions from the public and gave public lectures on popular astronomy topics.
2015	<b>5-Minute Physics Content Creator</b> Created interactive simulations and visualisations to increase engagement of students with educational appropriate translations.

### **Academic Presentations**

Nov 2017	Coding Practises for the Busy Astronomer	CAASTRO
Jun 2017	Hierachical Bayesian Models for Supernova Cosmology	Lawrence Berkeley National Lab
Dec 2016	Introduction to git and code management	University of Cambridge
Dec 2016	Hierachical Bayesian Models for Supernova Cosmology	University of Southampton
Dec 2016	Hierachical Bayesian Models for Supernova Cosmology	University of Portsmouth
Nov 2016	Sound waves in Space: Wigglez and the BAO	Swinburne University of Technology
Aug 2016	Publishing Packages in Python	University of Queensland
Aug 2016	ChainConsumer: Plots and LaTeX from MCMC chains	CAASTRO
May 2016	Hieracrhical Bayesian Models for Supernova Cosmology	Standford University
Feb 2016	Detecting Globular Clusters in Maffei 1	Gemini Institute
Nov 2015	Marz - Redshifting software inside your browser	OzDES Workshop

### **Publications**

While still only in the third year of my PhD I have 3 first-author papers, and 14 contributing author papers. The software I wrote for presenting cosmological data is being used by the Dark Energy Survey (DES; a major international cosmology survey, of which I am a part) for all of their main results, including the Year 1 Results, (DES collaboration et al. 2018) which has 169 citations within one year of submission.

We are about to publish a series of 8 papers, the first supernova cosmology papers to emerge from DES, for which I am a primary author. These are available on arXiv and being sent to journals.

### **First Author**

Measuring the 2D baryon acoustic oscillation signal of galaxies in WiggleZ: cosmological constraints **Hinton**, **S. R.** et al. MNRAS 464 (Feb. 2017) pp. 4807–4822

ChainConsumer

Hinton, S. R. JOSS 1.4 (Aug. 2016). The Open Journal

Marz: Manual and automatic redshifting software

Hinton, S.R. et al. Astronomy and Computing 15 (2016) pp. 61-71

## **Contributing Author**

Dark Energy Survey year 1 results: Cosmological constraints from galaxy clustering and weak lensing Abbott, T. M. C. et al. Phys. Rev. D 98 (4 Aug. 2018) p. 043526. American Physical Society

The Dark Energy Survey Data Release 1
Abbott, T. M. C. et al. ArXiv e-prints (Jan. 2018)

The WiggleZ Dark Energy Survey: final data release and the metallicity of UV-luminous galaxies

Drinkwater, M. J. et al. Monthly Notices of the Royal Astronomical Society 474 (Mar. 2018) pp. 4151–4168

Dark Energy Survey year 1 results: Galaxy clustering for combined probes Elvin-Poole, J. et al. Phys. Rev. D *98* (4 Aug. 2018) p. 042006. American Physical Society

Dark Energy Survey Year 1 Results: Cross-Correlation Redshifts - Methods and Systematics Characterization Gatti, M. et al. Monthly Notices of the Royal Astronomical Society (Feb. 2018)

Dark Energy Survey Year 1 Results: redshift distributions of the weak-lensing source galaxies Hoyle, B et al. Monthly Notices of the Royal Astronomical Society 478.1 (2018) pp. 592–610

Rapidly evolving transients in the Dark Energy Survey
